

## What is S<sup>4</sup>-as-a-Service?

S<sup>4</sup>-as-a-Service offers our customers the flexibility and agility required to more efficiently operate SAP – without the capital expense and IT resources associated with an in-house solution. Let us take on the administrative burden of architecting, managing, and supporting your SAP environment, and allow you to do what you do best – manage your business.

Get the world's best software at an affordable price

Savantis helps mid-sized businesses cost-effectively implement and benefit from SAP software. We offer complete implementation services, training and staffing assistance, mobile apps, hosting, and technical support provided through SAP's world-class Application Management Services (AMS).

Our Mission is to build long-term, mutually beneficial True Partnerships with our customers, because we believe these relationships are the only ones worthwhile to be a part of, and the only ones that last. We are your one-stop-shop for all your SAP needs, and we will be here to help you every step of the way.

## Why S<sup>4</sup>aaS?

As a market leader in business application software, SAP helps companies of all sizes and industries innovate through simplification. This best-in-class software is responsible for 74% of the world's transactions. And now your company can be among the best by implementing SAP software. At just \$195/user/month, you will be able to benefit from all of the core functionality that SAP has to offer. That is literally less than the cost of purchasing a Chipotle steak burrito every night for dinner!

## How will S<sup>4</sup>aaS benefit me?

Our S<sup>4</sup>aaS solution can assist you with virtually all operations of your business, such as finance, sales, warehouse management, procurement, planning, distribution, and more. For the past 20 years, we have become very skilled in making SAP software work for mid-sized businesses in resource-constrained environments. We have developed a variety of rapid implementation templates, and our team has perfected proven methodologies. With our S<sup>4</sup>aaS offering, we will host and manage your SAP environment for you. All you will need is a web browser, and we can have you up and running in a matter of weeks. Running a growing and evolving business is complicated enough, without having to manage IT infrastructure as well. Simplify your life, and allow us to take away the day-to-day operational burden from your laundry list of responsibilities. The bottom line is that we want to see our customers be successful, and we don't consider ourselves successful until we can make that happen. Call us today to see how S<sup>4</sup>aaS can benefit you, and how we can help you simplify your IT environment.
